Project Scope: Install plants and irrigation system

Existing Funding: State TE: \$350,000
Reg'l TE: \$40,000

Future Funding Need: \$0

Total Estimated Cost: \$390,000

Project Schedule: PA&ED done
PS&E 04/05
CON SUP 05/06
CON 05/06

PROJECT INFORMATION

Purpose & Need for the Project:

Project Need:

This interchange currently has no landscaping. It is the major gateway into North Red Bluff. There is only bare soil there now and it is covered with weeds and few wildflowers, but it needs additional landscaping to help beautify the area and establish a permanent landscaped interchange.

Project Purpose:

To install plants and irrigation to provide for low maintenance landscaping and erosion control. Landscaping will also enhance this major interchange in Red Bluff that serves a fast growing residential and commercial area.
